

# CST Workshop at Metamaterials 2009

3<sup>rd</sup> September 2009

CST invites you to a free half-day seminar at Metamaterials 2009 focused on successful design using the latest 3D electromagnetic simulation software.

This workshop will take place from 9am-12pm, and repeated in the afternoon from 2-5pm

## Provisional Agenda

Morning session (9AM - 12 Noon)

- Introduction to the CST world
- Modelling: User interface, workflow
- Complete Technology : CST MICROWAVE STUDIO® Hexahedral PBA and Tetrahedral meshing
- Floquet ports and periodic boundaries
- User talk
- Hands on session on modelling Metamaterials - try for yourself how easy and powerful 3D EM simulation with CST technology can be

Afternoon (2PM - 5PM)

The above program will be repeated

This workshop is free to attend. Places are limited and advance registration is recommended (please state if you are registering for the morning or afternoon session).

For more information contact [info@uk.cst.com](mailto:info@uk.cst.com) or call +44 115 9061 120.
